DECLARATION IN SUPPORT OF PETITION UNDER 37 CFR 1.183

I, Birgit Bartell, hereby state that:

- I am the office and docket administrator at Lerner Greenberg Stemer LLP. Among others, my duties include the supervising of all data entry, such as logging all incoming and outgoing mail in counsel's docketing system, which includes the docket book, the computer docket system and all related file and mail logs;
- had a *Panel Decision*, dated November 2, 2009, been received in the above-identified application, it would have been entered on the file jacket, in counsel's computer database and the docket book;
- a thorough review of counsel's office records reveals that neither the file jacket, the database or the docket book contains a corresponding entry, which allows me to state with certainty that no *Panel Decision*, dated November 2, 2009 was received in the above-identified application;
- Lerner Greenberg Stemer LLP has very stringent procedures to assure that such entries are diligently and responsibly made and the firm's entire docket system is carefully crafted with checks and balances to assure that omissions of this type cannot occur.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
